

Introduction

Music plays an important role in the socialization of children, adolescents, and adult. Popular music is present almost everywhere, and it is easily available through the radio, various recordings, the Internet, and new technologies, allowing adolescents to hear it in diverse settings and situations, alone or shared with friends. And this project is about to get Lyrics of songs “LYRICS GRABBER”. It is the application which helps to generate the lyrics of a song. The project title refers the whole meaning of the entire project. (Lyrics grabber) it is a kind of app which grabs the lyrics of the song and provides to user. This app is best for the music lover and artists who are enrolled in the music field its main target is to reduce effort for the people who are fond of music. Nepal is an underdeveloped landlocked country from south Asia. Unstable political situation is the major problem of the backwardness of the country. Recently in Nepal there has not been any progress in music industry. Nepal is full of different culture and religion and the society, culture has their own musical influence some famous music instrument of country were Sarangi, Madal.
